\* 1 water bottle (1 litre)

\*\* Do not bring electronic equipment (ie. gameboys, walkmans...)\*\* Cameras should be waterproof ones. Most conventional cameras break down in the moist Salt Water air conditions.

Note: Cotton gear gets wet quickly and allows you to get cold quickly. Wool or synthetic gear acts like a wick and if your gear is wet the moisture is drawn to the outer layers. Wearing layers and mostly pile and synthetic is the most ideal for our climate. If you have any questions or concerns please call us re clothing suggestions.

Please call if you have any questions. We do carry a few bags of extra gear that can be borrowed from counselors.

Note: Island Escapades T-shirts are available for campers to purchase for \$18.
